

FAXport is professionele netwerk faxsoftware voor o.a. Windows omgevingen

Met FAXport software kunnen gebruikers vanaf elke PC en overal in het netwerk faxen aanmaken, bewerken, versturen en ontvangen. De faxsoftware heeft standaard koppelingen met o.a. Exchange Server en Lotus Notes. Maar ook zonder gebruik van de e-mail server kan het pakket faxen met de faxclient software.

- stuur faxen net zo als e-mail vanuit Outlook/Notes
- ontvang faxen net zo als e-mail in Outlook/Notes/Webmail
- of gebruik standaard FAXportclient voor compleet overzicht
- stel uitgebreide 'admin' beheer functies in
- extra module voor direct faxen en e-mailen vanuit crm/erp en unix/linux/as400 omgeving
- meerdere faxservers (ip routing)
- ondersteunt veel soorten hardware waaronder Brooktrout
- pdf output mogelijk (vereist Adobe Acrobat)
- faxen 'revision proof' archiveren mogelijk

FAXport gebruikt Exchange Server als doorgeef luik. De werkelijke faxserver kan op elke netwerk PC geïnstalleerd worden. In de Outlook clients wordt een plug-in geïnstalleerd waar voorbladen en user preferences kunnen worden ingesteld. Ook kan er na de plug-in direct een faxnummer in de 'Aan:' balk worden gezet of de faxnummers kunnen uit Outlook contacts worden opgehaald. Deze werkwijze is zeer stabiel en doeltreffend en belast de exchange server minimaal.

Binnenkomende faxen kunnen via nummer herkenning (DNIS en DID) automatisch doorgestuurd worden naar de juiste gebruiker. Er is een minimale gebruikers training nodig.

Indien de TEC Document Server wordt gebruikt, dan kan er automatisch worden gefaxt met documenten vanaf platformen, als open VMS, Unix / Linux, NT, AS/4000, IBM Mainframes, DOS / Novell.

IP Fax Messaging Software for Enterprises and Workgroups

FAXport IP Fax Messaging software allows users from their desktop and anywhere on the network—to prepare, preview, send, and receive faxes.

Through integrating FAXport with e-mail and the most common applications, FAXport becomes a part of everyday activities. FAXport is a feature-rich technology that provides economical network faxing capabilities and improved productivity, eliminating the need for dedicated fax machines and phone lines.

FAXport is a feature-rich technology that provides economical network faxing capabilities and improved productivity.

FAXport Benefits the User Tremendously

Complete Desktop Integration

Allows users to send and receive faxes directly from e-mail clients or from Windows applications.

Minimum Need for User Training

Through the addition of a "Fax To" button, sending a fax from Microsoft Outlook is as easy as sending e-mail.

Multi-platform Capability

Enables faxing from Microsoft Exchange, Lotus Notes/Domino, Citrix WinFrame and MetaFrame, and Microsoft Terminal Server, as well as, Windows XP, NT, and 2003 operating systems.

Supports legacy platforms

When powered by TRANSport, FAXport enables automatic delivery of mission-critical documents from legacy platforms, such as: Open VMS, Unix / Linux, NT, AS/4000, IBM Mainframes, DOS / Novell.

Inbound faxing and Routing

Dialed Number ID (DNIS) and DID support, routes incoming faxes directly to the recipients' desktops. This allows the user to get secure faxes anywhere, anytime, any place, and on any device.

Print Messages & e-mail on remote fax machines

FAXport offers comprehensive printing solutions from wireless devices to any fax machine, when powered by SMSport.

Fax Broadcasting

Fax broadcasting with mail-merge capabilities is easy to use, fast, and efficient.

Through integrating FAXport with e-mail and the most common applications, FAXport becomes a part of everyday activities.

IP Fax Messaging Software for Enterprises and Workgroups

For more information please contact your local Rep:

Or look us up at www.faxport.com for a reseller in your area.

Centralized control and friendly user management

Provides full reporting on all incoming and outgoing faxes, including senders, recipients, and fax numbers. Users can track in real time their fax status.

Centralized security and Remote Administration

Integrated with the Corporate LAN security standards, enables administrators to assign users to groups, set access limits to faxes and attachments. Sensitive business transactions may first require approval or be monitored before transmission.

Firewall Friendly

FAXport has its own IEEE assigned sockets that lets the user configure the firewall.

APIs for application integration

An extensive set of powerful APIs allow complete integration of fax functionality into almost any Windows or Web-based application.

Flexible installation & Intuitive Set-up

Installs to every desktop on the network in a few easy steps. Once the network manager has installed the FAXport server and Gateway, the users then click on the icon that automatically installs the client software on their desktop.

Uniport Ltd. Experienced Supplier of Universal Messaging Technology to Enterprises

Uniport Ltd. is an experienced, well-established supplier of enterprise fax and universal messaging solutions. Our customers range from large distributed user-base organizations to small workgroups, including government institutions, manufacturing companies, universities, financial institutions as well as service-oriented companies.

A Comprehensive Family of Universal Messaging Products

- **SecurePort** - Protects leakage of confidential documents from the organization. It monitors and protects information sent out from any communication channel / port, such as e-mail, Internet chats, fax machines, printers, securing all possible data leaks.
- **PRINTport** - A secure enterprise print management system. PRINTport was designed for organizations that need a mechanism to control and secure print jobs on their public shared printers, provide billing information, and save money.
- **SMSport** - Enables enterprise users and applications to send and receive messages "To" and "From" mobile phones, extending the mobile Short Message Service (SMS) into a robust business solution.
- **FAXport Connector for SAP / Oracle Application** - Automates the delivery of mission critical documents by providing powerful electronic document delivery mechanism from ERP systems.
- **Xport & FAXport4HP** - FAXport for Xerox & HP Multifunction office machines and LAN Scanners, enable users to access documents and send outbound faxes directly from the Xerox & HP devices.
